

Getting involved

Ubuntu GNOME is the official flavour of Ubuntu, featuring the GNOME desktop environment. It is a Community Project and **all the members of this project** are working on voluntary basis. We do what we do because we simply love it. If you have that passion, then you are indeed in the right place.

Ubuntu GNOME needs you. With your help, we could be even better.

There are many areas where you can contribute and help Ubuntu GNOME with. Choose whatever you like the most. All help and contributions are highly appreciated and more than welcome.

We are a Team of Quality in every aspect and Quality is our top priority and main focus over Quantity. However, it would be really great to obtain both.

For more information on HOWTO Get Involved with Ubuntu GNOME, please **have a read at this Wiki Page**.

Contact us

Mailing list

The Ubuntu GNOME **mailing list** serves as the official communication forum for developers and users. You must be subscribed to send messages. Please **read this before subscribing** to the mailing list.

IRC

We have an IRC channel on irc.freenode.net, called **#ubuntu-gnome**, where day to day conversations and support relating to Ubuntu GNOME take place.

See here to know to connect to IRC.

If you don't have an IRC client installed, you can also use the **Freenode web-based client**.
